# Colour Coded Book labels and matching Time Table

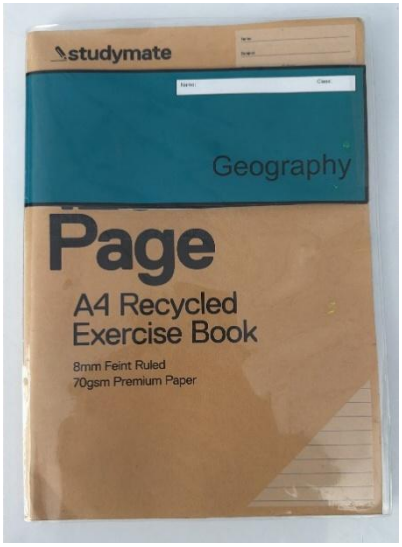

Year 7 students at Wahroonga Adventist School are required to label exercise books using the provided colour-coded book labels. The label colours match the colours on the school timetable. This helps students check their timetable, identify the correct books quickly and arrive at class with the equipment they need.

## Instructions on how to use colour-coded labels

1. Download the colour-coded labels from the school website.
2. Cut out each label and fold it along the dotted line.
3. If you wish, cover the exercise book with the book covering of your choice.
4. Use sticky tape to attach the label to the top of the book, with only a short section overlapping onto the back.
5. Write your child's name and the other required details on the label.
6. Place the book inside the plastic book cover.
