

Designing Strategy

UNITED IN PURPOSE

Wollemi College

Strategy 2026-2030

Strategy Preamble

The world is changing rapidly. Artificial intelligence, evolving technology and the pervasive influence of social media are fundamentally reshaping the way we live, work and learn and with this, the purpose of education. Whilst exciting, we are also witnessing this transformation erode the human connections that give meaning to our lives. Wellbeing is declining and purpose is harder to find. Traditional credentials alone no longer guarantee readiness for the future, and the constant pace of change demands a different kind of preparation.

In this landscape, it is wisdom, sound judgement and strength of character that matter most. Education must do more than deliver content; it must form the whole person. Formation, not just information.

Wollemi College enters this moment from a position of strength. A vibrant period of growth has seen our student community expand, our staff deepen in professionalism and expertise, and our cultural diversity enrich the life of the College.

Throughout this growth, our mission has remained constant: shaping men of character in partnership with parents as the primary educators and grounded in the Catholic faith.

This enduring foundation now calls us forward. The Wollemi College Strategy 2026–2030, *United in Purpose*, sets the path towards our bold ambition to become a learning community where character is the curriculum and virtue is the credential.

Wollemi College

Who we are

We are an Independent school preparing boys Years 2-12 for a life of faith, virtue and excellence.

We believe education is a partnership with parents to form men of good character who can freely choose the right path.

Grounded by the traditions of the Catholic faith and the Sacraments we balance learning mastery and innovation so that our school remains a place for all to connect, grow and aspire to greatness.

Our Mission

Shaping men of virtue.

Always. Everywhere.

Our Vision

A learning community where character is
the curriculum and virtue is the credential.

Wollemi College Values

Pursue Excellence

Strive to the highest level in all aspects of life

Practice Piety

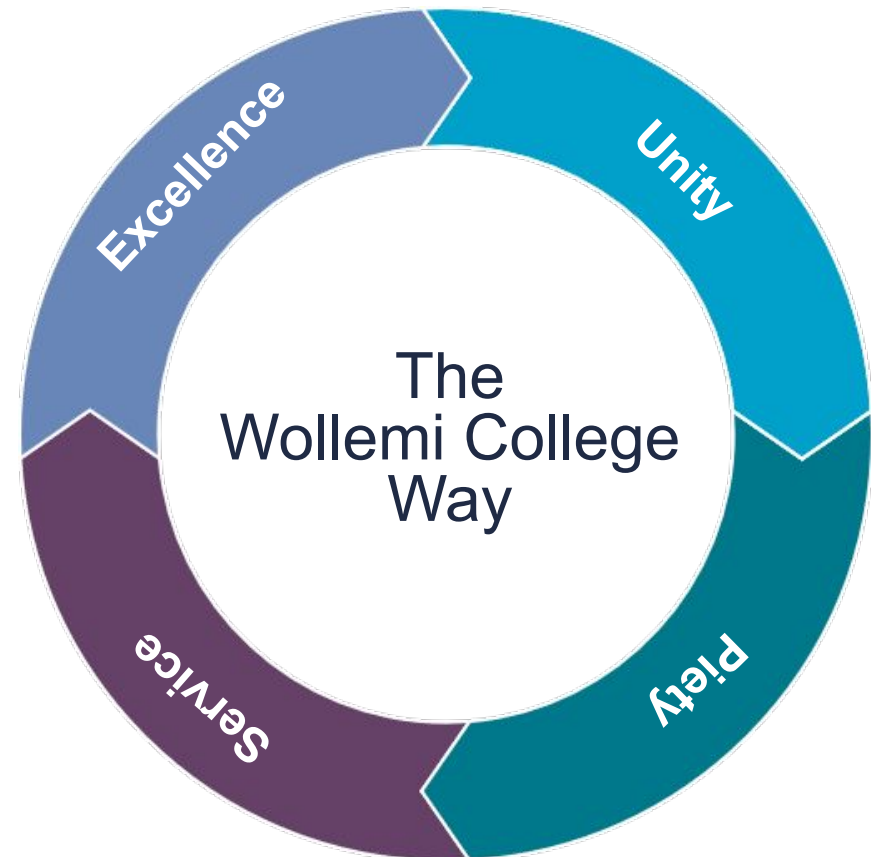

Develop a personal relationship with God through a habit of prayer and the sacraments

Foster Unity

Take responsibility and act as part of a team towards our common purpose

Be of Service

Actively show care and support for others

Graduate Attributes

‘The Wollemi Man’

When the work is hard, he leans in. He’s the one staying late to get it right, not for praise, but because excellence is the standard. You can trust him to finish what he starts.

He notices what needs doing and does it. No fanfare. He holds the door, speaks up in the face of injustice, and makes space for people who get overlooked. He leads by serving.

He remembers names and listens like it matters. He’s the one who checks in on others and shows up when it counts, challenging his friends to do the same.

He is a man of faith with the courage to talk about what he believes and live it. It’s in how he treats strangers, handles pressure and finds hope when things fall apart.

This is the Wollemi College graduate’s mark of distinction.

Strategic Commitments 2026-2030

United in Purpose

Lifting Professional Practice

Wollemi staff model virtue, set robust professional learning goals and consistently align to the Wollemi professional standards to be best we can be.

We don't settle.

1

Enhancing Virtue Education

We prioritise learning experiences that develop good character for a rapidly changing world.

We don't lose focus.

2

Reimagining Parent Partnership

We adapt and refine how we work with parents to meet the needs of families today.

We don't stop listening.

3

Sharpening Pedagogy

We are disciplined in our teaching to maximise student learning growth: high expectations with high support.

We don't accept mediocrity.
